Topic 1 The seaside resort hotel located within a 30-second walk to Shirarahama Beach.

The beautiful Shirarahama Beach is part of a curved coastline. The quartzose sand contains silicic acid, which makes the beach sand pure white and silky to the touch. The transparent sea is popular for sea bathing. The contrast of the blue sea and white sand creates a beautiful, breathtaking scene. Please enjoy the superb ocean views that only a hotel with direct access to the beach can offer.
